

There are over 40 million people living with HIV and AIDS worldwide. Over 95% live in developing countries.

With each minute that passes, another African child dies of AIDS.

Young people, 15-24 years old, account for half of all new HIV infections worldwide more than 6,000 become infected with HIV every day.

India has the second highest number of HIV positive cases, after South Africa

BBC

“It is a moral imperative to treat the largest number of HIV and Aids sufferers we can with whatever money we have”

Former US President Bill Clinton

In 2005 there were
4.9 million new
infections and 3.1 million
Aids related deaths

Today, over 40
million people are
living with HIV

In 2005 there were
2.3 million children
under 15 living with
HIV / Aids

Africa is home to more
than 26 million people living
with HIV/ Aids. Yet only about
1 in 10 of Africans living with
HIV/Aids are receiving
anti Aids drugs.
